FOR SEASONING SAUSAGE MEAT.

To 30 pounds of well cured meat, from 9 to 10 ounces of clean, well rubbed fine salt, 4 ounces of pepper, and 1 ounce of sage. If you use a cutter, as most persons, apply the seasoning after the first operation, and then pass it through the machine again, which will facilitate the process of mixing, and which should be done thoroughly.

VALUE OF LEAVES.

Payen and Boussingault give analysis of leaves from several different trees. Taking the average of all their analyses, leaves contain 1.13 per cent. of nitrogen, together with a large amount of mineral and carbonaceous matter. Common barn-yard dung contains 0.41 per cent. of nitrogen, and we may confidently assert, that leaves are worth three times as much as common barn-yard manure.

APPLE SAUCE.

To make good apple sauce, pare, quarter and core nice sweet apples; dry them on a rack made of sacking, suspended over the kitchen stove. When dry wash them and stew them in new cider; when done, the cider will be sufficiently boiled to keep until warm weather. A few quinces cut and dried in same manner, will improve the sauce.

NAVY DEPARTMENT.

This Department, under the charge of the Hon. James C. Dobbin, Secretary of the Navy, is divided into six Bureaus:

1. NAVY DEPARTMENT PROPER.—

This is the office of the Secretary of the Navy. Mr. Dobbin's chief clerk is Charles W. Welsh, Esq. He has eleven assistant clerks. The Secretary of the Navy has charge of every thing connected with the naval establishment; and the execution of all laws relating thereto is entrusted to him, under the general direction of the President of the United States, who, by the constitution is commander-in-chief of the Army and Navy. All instructions to commanders of squadrons and commanders of vessels, all orders to officers, commissions of officers, both in the navy and marine corps, appointments of commissioned and warrant officers, and orders for the enlistment and discharge of seamen, emanate from the Secretary's office. All the duties of the different bureaus are performed under the authority of the Secretary, and their orders are considered as emanating from him. By recent acts of Congress, also, the hospital for the insane of the army and navy, and of the District of Columbia, is under the management of this department; and by assignment from the President, the survey and demarcation of the unsettled boundary lines between the States and Territories, and bordering nations. This Bureau is under the control of the Hon. T. H. Hendricks, Commissioner of the General Land Office. This Bureau is charged with the survey, management, and sale of the public domain, and the issuing of titles therefor,

whether derived from confirmation of grants made by former governments, by sales, donations, grants for schools, military bounties, or public improvements, and likewise the revision of Virginia military bounty land claims, and the issuing of scrip in lieu thereof.

This is the only office in the government, we believe, which has the power of auditing its own accounts. Five of its officers, viz : the Commissioner, the Recorder, the chief clerk of Public Lands, the chief clerk of Surveys, and the chief clerk of Private Land Claims, are appointed directly by the President, and confirmed by the Senate. This Bureau gives continual employment to about 120 clerks.

The Hon. Josiah Minot, Commissioner of Pensions, has control of this Bureau, which is charged with the examination and adjudication of all claims arising under the numerous laws passed by Congress, granting bounty land or pensions for military or naval services in the revolutionary and subsequent wars in which the United States have been engaged. The Commissioner is aided by one chief clerk, and a force of about seventy regular assistants, but the force was temporarily nearly doubled during the six months next following the passage of the last Bounty Land Bill.

This Bureau is in the charge of Horatio King, Esq., First Assistant P. M. General. To it are assigned all questions which relate to the establishment and discontinuance of post offices, changes of sites and names; appointment and removal of postmasters, and route and local agents, as, also, the giving of instructions to postmasters. Postmasters are furnished with marking and rating stamps, and letter balances, by this Bureau, which is charged also with providing blanks and stationery for the use of the department, and with the superintendence of the several agencies established for supplying postmasters with blanks. To this Bureau is likewise assigned the supervision of the ocean mail steamship lines, and of the foreign and international postal arrangements.

2d. BUREAU OF CONTRACTS.—

This Bureau is in the charge of Wm. H. Dundas, Esq., Second Assistant P. M. General. To it is assigned the business of arranging the mail service, and placing the same under contract; embracing all correspondence and proceedings respecting the frequency of trips, mode of conveyance, and times of

departures and arrivals on all the routes—the course of the mail between the different sections of the country, the points of mail distribution, and the regulations for the government of the domestic mail service of the United States. It prepares the advertisements for mail proposals, receives the bids, and takes charge of the mail lettings, and the adjustment and execution of the contracts. It reports weekly to the Sixth Auditor of the Treasury, all contracts executed, and all orders affecting accounts for mail transportation; prepares the statistical exhibits of the mail service, and the reports of the mail lettings, giving a statement of each bid; also of the contracts made, the new service originated, the curtailments ordered, and the additional allowance granted within the year.

All applications for the establishment of post offices and mail routes; for the alteration of mail arrangements, and for the appointment of mail messengers, must be sent to this Bureau, directed to "The Second Assistant Postmaster-General."

3d. BUREAU OF FINANCE.—

This Bureau is in charge of John Marron, Esq., Third Assistant Postmaster-General. To this office are assigned the supervision and management of the financial business of the department, not devolved by law upon the Sixth Auditor of the Treasury, embracing accounts with the draft offices and other depositaries of the department, the issuing of warrants and drafts in payment of balances reported by the Auditor to be due to mail contractors and other persons; the supervision of the accounts of offices under orders to deposit their quarterly balances at designated points; and the superintendence of the rendition by postmasters of their quarterly returns of postages. It has charge of the dead-letter office—of the issuing of postage stamps, and stamped envelopes for the prepayment of postage, and of the accounts connected therewith.

4th. BUREAU OF INSPECTION.—

John Oakford, Esq., chief clerk of the Post Office Department (really Fourth Assistant Postmaster-General), has charge of this Bureau, to which is assigned the duty of receiving and examining the registers of the arrivals and departures of the mails, certificates of the service of route agents, and reports of mail failures; of noting the delinquencies of contractors, and preparing cases thereon for the action of the Postmaster-General; furnishing blanks for mail registers, and reports of mail failures; providing and sending out mail-bags and mail-locks and keys, and doing all other things which may be necessary to secure a faithful and exact performance of all mail contracts.

All cases of mail depredation, of violation of law by private expresses, or by the forging or illegal use of postage stamps, are under the supervision of this office, as are also cases of mail depredations, and lost or missing letters, mail failures, complaints against contractors, &c.; and all communications to the Department on any of these subjects, must be directed to "The Chief Clerk, Post Office Department."

ATTORNEY-GENERAL'S DEPARTMENT.

The Hon. Caleb Cushing, Attorney-General of the United States, attends to the following business for the government:

State Land Commissioners.

This Board, which has charge of the sale of the State's interest in San Francisco property, consists of the Governor, Controller, and Secretary of State.

State Prison Directors.

F. S. M'KENZIE, E. WILSON, and ALEXANDER BELL.

This Board has complete control over the State Prison and its government and discipline. The members elect one of their number Warden, who must reside continually at the Prison, and attend personally to its management.

Board of Education.

J. Neely Johnson, *Governor*,
 Paul K. Hubbs, *Superintendent of Public Instruction*,
 John H. Brewster, *Attorney-General*.

The following information in relation to our common school system, may appropriately be placed under this head.

The property set apart for the schools of this State, consists of 500,000 acres of lands donated by Congress for purposes of internal improvement, and diverted by the constitution of this State, with the approval of Congress, to school purposes; 46,080 acres donated by Congress for the use of a university.

The 16th and 32nd sections (1280 acres,) in each township, six miles square of the public lands within the State, for the use of the schools of each township wherein situated. If settled upon before the U. S. Survey, the section shall be located in accordance with the act of Congress of 20th May, 1826, "out of any unappropriated public land within the land district."

Of the 500,000 acres there has been disposed of under the act of the Legislature of 1851, 232,000 acres, producing \$464,000. This is invested in Bonds of the State, bearing seven per cent. interest, amounting to \$32,480 per annum, one-half of which is apportioned on the first of January, and the other on the first of July in each year, to the various school districts of the State, where schools have been established at least three months prior to 31st October next preceding the distribution.

Receipts into the treasury of escheated estates belong to the school fund. By act of 1852, five cents on each hundred dollars, assessable property, was assessed as State tax for school purposes, but this act was *repealed* by the act of 1853. By act of 1854, one-fourth of the net proceeds coming into the treasury from poll tax, was placed in the school fund, but the act of 1855 *repealed* the clause. The pro-rata of State appropriation for July last was but \$1 18 to each child resident. Ten cents on the hundred dollars may be raised, at the option of the Board of Supervisors in each county for a county school fund.

The number of common schools reported in the State for January, 1853, was twenty; number of pupils, 3,314. The number of common schools reported in the State for January, 1855, was 214; number of pupils, 20,075. Three colleges were chartered in 1855—one at Santa Clara, one at San José, and one at Oakland.

Many private seminaries for young ladies (boarding and day schools,) are successfully conducted at Benicia, San Francisco, Sacramento, Santa Clara, San Joaquin, and other places. The cities of San Francisco, Stockton, Sacramento, Benicia, and probably others, have provided public schools free of charge to pupils. In other districts the patrons of the schools make up the deficiency of State and County fund. The State Superintendent is elected at the general election every three years. The County Superintendent at the general election, every two years, and three Trustees for each school district are elected annually on the first Monday of October.

The Hon. Paul K. Hubbs, the State Superintendent of Public Instruction, has opened, at his office in Benicia, a register, where teachers desiring situations, and Trustees and others, wishing to employ teachers, can have their wishes recorded free of charge, by addressing a note to Mr. H., who will take pleasure in putting the different parties in communication with each other. Copies of the School Law, with forms, &c, for reports, can be had free of charge, by addressing the State Superintendent, as above.

In this connection we deem it proper to publish the following nine most generally important sections of the present School Law :

COUNTY SUPERINTENDENTS.

Fifth, To keep on file in his office the report of the School Trustees, Marshals and Teachers, received by him, and to record all his official acts as such County Superintendent, in a book to be provided for that purpose; and at the close of his official term, to deliver to his successor such records, and all documents, books and papers belonging to his office, and to take his receipts for the same, which shall be filed in the office of the County Treasurer. Sixth, To make full report, in writing, annually, on or before the twentieth day of November, for the school year ending on the last day of October next previous thereto, to the Superintendent of Public Instruction; such report to include an abstract of all the various annual reports of the City Boards of Education, School Teachers, Marshals and Teachers, by law required to be made to the County Superintendent for the preceding school year.

SEC. 12. Upon receiving notice from the County Treasurer, as provided in this Act, the County Superintendent shall apportion the Common School moneys in the County Treasury among the several towns, cities and school districts, in proportion to the number of white children residing therein, between the ages of four and eighteen years, as shown by the last previous reports of the Common School Marshals, and other officers charged therewith; and shall forthwith, in writing, notify the County Treasurer of such apportionment in detail; and no school district shall be entitled to any portion of the Common School moneys in which there shall not have been taught a Common School for three months within the year ending on the last day of October previous.

COUNTY TREASURERS.

Second, On receiving any Common School moneys subject to distribution, to notify the County Superintendent of Common Schools of the amount thereof. Third, To pay over on the warrant of the County Superintendent, duly indorsed by the person entitled to receive the same, the several amounts of school moneys to which each city, town and district shall be entitled. Fourth, And on or before the first day of November, annually, to make a full report of the Common School moneys received into the County Treasury within the school year ending on the last day of October next previous thereto; with a particular statement of the disbursement of the said school moneys; and of any amount of said school moneys which may remain in his hands for distribution at the close of such school year, designating whether of State or county school fund, to the Superintendent of Public Instruction.

SEC. 14. In each school district of this State, except otherwise provided by law, there shall annually be elected three Common School Trustees by the qualified electors in the district, at the school district meeting, to be held on the first Monday in October, and the district officers shall give at least ten days' notice of the time and place of said meeting. Such Trustees are required to take the oath of office, and they shall enter on their duties on the first Monday of the month subsequent to their election, and shall hold their office for one year, or until their successors are elected and qualified; *provided*, the election of Trustees for the present year shall take place on the first Monday of June.

SEC. 15. In all case of failure on the part of the people to elect Trustees as herein provided, and also upon this Act taking effect, and when vacancies occur, and when a new district is formed, the County Superintendent shall appoint the same.

SEC. 17. The Trustees may cause the Common Schools within their respective jurisdiction, to be divided into Primary, Grammar, and High School Departments, and to employ competent and legally qualified teachers for the instruction of the different departments, whenever they shall deem such division into departments advisable; *provided*, there be sufficient means for all such departments, and if not, then, in the order in which they are herein named, the primary school having preference.

* Humboldt—No report. The returns given are those made last year.

† Los Angeles raised 2,915,360 lbs. of corn, (maize), 909,248 lbs. of beans, and 4,592,448 lbs of grapes.

TO THE PUBLIC.—The publishers, in consequence of having heavy printing contracts to execute by a specified time, were compelled to put aside much of their own work, amongst which was this book, notwithstanding that about two thirds of its pages were printed before the 1st of January last. This prior printing will account for the non-appearance in their proper places of the names of the Hon. DAVID F. DOUGLASS, Secretary of State, and Wm. H. RHODES, Esq, the Governor's Private Secretary, and also for a few mis-spellings in the names of the members of the Legislature—it having been impossible to obtain them correctly from the official returns.

As the statistics of this work are its main features, the calendar pages were entrusted to another party, and neither the editor nor the undersigned wish to father the nonsense at the foot of them.
